AppleLinkTM

UPDATE

The Monthly Magazine for AppleLink® – Personal Edition Members

**Vacation
with
AppleLink!**

Editorial

Dear AppleLink®—Personal Edition Member,

We've got fireworks going off all over AppleLink this month! Check out the Apple Community, page 1, for information on taking your AppleLink friends on vacation with you, no matter where you're going! All you'll need are your computer, your modem, your AppleLink Connect Guide, and an alternate power source.

Haven't made reservations for vacation? Don't worry, you've got American Airlines' EAASY SABRESM Travel Service (*keyword: sabre*), located in the The Mall in General Services, to help you save time and money by making your travel arrangements online. Read how on page 5. Then find out how you can challenge other AppleLink members with your word power, strategy, and timing when you play MasterWordSM, an exciting new word game the whole family can play on that vacation. Read about it in General Services, page 4.

Don't miss the other introductions and previews in July: Apple Headquarters (*keyword: hq*) launches the online *Apple II Technical Bulletin* when the Bulletin editors are our guests on July 6, at 9 p.m., in the Apple Auditorium (*keyword: apple auditorium*) of Apple Headquarters. And AppleLink University (*keyword: au*) gives us a sneak preview of the new MIDI course, described on page 2, on Thursday, July 27, at 9 p.m., in the Apple Auditorium.

I'd like to take a minute to introduce Jack Brown (AFL Jack) of the CP/M - MS/DOS Forum, our Featured Forum for July. Jack keeps the show moving **every Tuesday night at 9 p.m.** when computer lovers from all over the country talk about how they make their Apple Computers compatible with other computers. Jack has a special month planned, including a Contest and a Special Guest Event. If you live in a two-computer world, you'll want to find out more on page 1.

Be sure to check out the Update Features online magazine, located in Apple Community's Calendar and Events (*keyword: calendar*) this month. Quite a few of you have written telling me how much you've enjoyed the articles posted there. And I've enjoyed your Letters to the Editor!

See you online — at all hours!

Elizabeth Nelson

AppleLink Update

THE INSIDE STORY

Apple Community	1
General Services	4
Calendar of Events	7

All times noted in the calendar and throughout the magazine are Eastern times.

Take AppleLink With You On Vacation!

Planning to get away for a few days over the Fourth? Have a little family vacation scheduled in August?

Going to Yellowstone but can't bear to be away from AppleLink online service?

If you're planning to be away from home, and assume that means away from your computer, too, we've got news for you! **You can do work, even get online, with your Apple® computer in fun and exciting locations!** And you're not restricted to a hotel room, either. You can talk to your AppleLink friends from places like our National Forests, the beach, maybe even a boat.

By utilizing power inverters, batteries, and other aids, you can use your Apple just about anywhere. In fact, with a battery-operated cellular phone and a cellular modem, you can even call up AppleLink from that beach we mentioned! Just be sure to pack your Connect Guide and modem, along with this issue of *Update*.

With a little investigation, you'll be able to find many other alternate power sources. You can get more information on taking AppleLink "on the road" in the *Update Features* online magazine, located in Apple Community's Calendar and Events (*keyword: calendar*).

Get a Direct Connect with the CP/M - MS-DOS Forum

Let's say you use an IBM® computer at work, and you have an Apple

computer at home. There are some days when you'd like to work at home and then transfer the files from one system to

another, but you're not sure how to do it. The CP/M - MS-DOS® Forum (*keyword: cpm*) is the place for you.

This Forum was created to help people use their Apple computers with other computers.

AFL Jack leads the discussions about hardware and software issues like Z80 and 8088 co-processor boards, and the CP/M and MS-DOS operating systems that run on them.

Connecting your Apple to an IBM-compatible system doesn't have to be a chore, if you follow a few simple steps. You can find out more about them in the Forum weekly chat sessions **each Tuesday at 9 p.m. in the Forum Conference Room**. On **July 25**, AFL Jack will have a special guest attending the chat to celebrate the month as Featured Forum.

But you don't have to wait for a chat to check out the CP/M - MS-DOS Forum Software Libraries, which contain all kinds of handy utilities and programs for CP/M and MS-DOS computers. You'll also find **a wealth of information** on the Message Board, where you can post your own questions and ideas, too.

If you use another operating system, either with a card in your computer or a different box entirely, you'll find helpful hints in the CP/M - MS-DOS

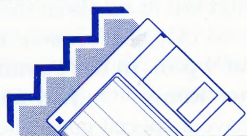

Read about the best of this month's
online happenings! Go to Calendar
& Events, in the Apple Community
(keyword: **events**).

APPLE COMMUNITY

Forum. And if you connect your Apple II or Macintosh® computer to CP/M and MS-DOS systems by cable or modem, you'll find others who share your needs, problems and experiences. Use keyword **CPM** today!

Win a Prize! CP/M - MS-DOS Forum Contest

Come up with the most intriguing use of a co-processor board in an Apple II or Mac . . . and you'll win an ImageWriter II printer! Your idea can be an actual program, or a method for using extra facilities to do something useful. Check the Forum Contest area, in the CP/M - MS-DOS Forum (keyword: **cpm**), for details.

Software Pick of the Month

ShrinkIt 2.02

Find it in: *Apple II Communications and Networking Library* (keyword: **acm**) > *Communications Processing Utilities* > *ProDOS 8/Comm Utilities*

This is a great revision to a very useful and popular archive program. ShrinkIt can compress and archive files and/or whole disks.

NEW!

AppleLink University Introduces MIDI Course

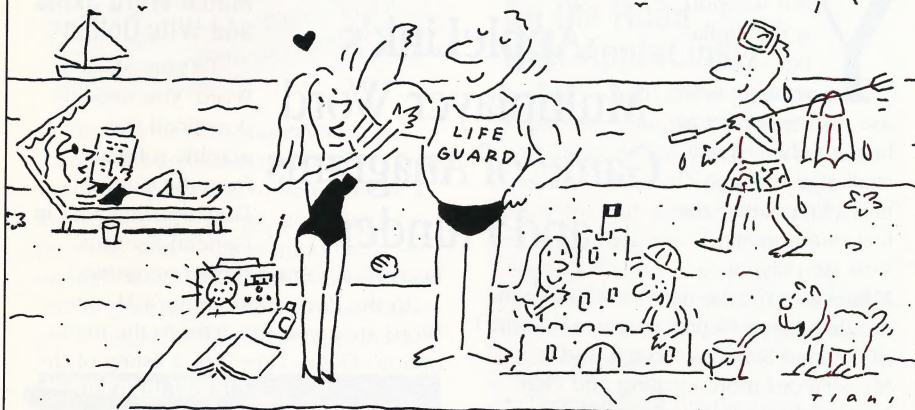

Start tuning up now for the MIDI (musical instrument digital interface) course coming to AppleLink University! Plan to attend the Sneak Preview at **9 p.m. Thursday, July 27 in the Apple Auditorium** (keyword: **au**).

MIDI makes it possible for anyone interested in music to really explore all of its facets. For instance, if you want to study a Sousa march, MIDI can produce data about which instrument keys were pressed, how hard, and in what sequence!

The MIDI course will show you how to get the most from MIDI software like *The Music Studio* by Activision, *Master Tracks Jr.* by Passport, and *MUSIC Construction seT* from Electronic Arts. You'll get tips on composing music with these software tools. And the music you create won't sound mechanical because everything, including the sound, is controlled by MIDI. With features like this, the course is sure to fill up fast, so plan to attend the Sneak Preview for registration details.

GENERAL SERVICES

Y

Play MasterWord: AppleLink's Multiplayer Word Game of Anagrams and Plunder

our weapon is the alphabet. Your strategy is to use one opponent to beat another. Your challenge is that each new player alters the feel of the game. You are playing MasterWordsm, the new word game in the Recreation Center (*keyword: games*) of General Services. You'll find MasterWord more exciting and challenging than any word game you've played before!

Explore a New Era of Online Gaming

MasterWord, developed exclusively for AppleLink®-Personal Edition by Brøderbund Software, Inc., and Quantum Computer Services, Inc., combines the best of the AppleLink online environment with Brøderbund's gaming technology.

This competitive game of word play and timing — with its color graphics, animation, and sound — will entertain you far more than any word game you've played before. And when you play MasterWord, you're not just playing against your computer — you're playing with other AppleLink members! You use one opponent to help you beat another, and each new player makes the game even more challenging.

Match Word Skills and Wits Online

To play MasterWord, you need to download the graphic software from the Games Downloading area in General Services'

Recreation Center (*keyword: games*).

In the Recreation Center's MasterWord area, you can refer to the menu option "Game Time" for a listing of the

M

asterWordsm

week's games — or you can play a game whenever you want! Anytime you and at least one other AppleLink member enter the "Word Library" and load the MasterWord software, your computer prepares to begin a game. You'll be guided by helpful prompts along the way and be able to chat with the other players — up to eight at a time!

M Download and Play Tonight!

You could be having fun RIGHT NOW! Simply go to the Recreation Center (*keyword: games*) and download MasterWord tonight. You'll find the complete rules online!

When you play MasterWord, your word skills are not *everything* — to be victorious you need to demonstrate a keen sense of strategy, grace under pressure, and — most importantly — timing! When you think you've solved one of your opponent's words, you've got a bigger, better challenge ahead:

Word Power WINS!

Keep an eye on the Game Time area

of MasterWord for special events and contests!

You earn a point for solving the word but, in addition, you "plunder" your opponent. Every correct letter and word that opponent has guessed will appear suddenly on your screen.

This plunder aspect of the game opens up new strategic dimensions. Do you wait to solve a word until your opponent may have made a number of correct guesses, thus giving you more to plunder? Which opponent has solved entire words that you can plunder by solving the opponent's word?

Experience for yourself the excitement of MasterWord — download your software from the Recreation Center today, and join fellow AppleLink "wordsmiths" in the Word Library for a unique and invigorating challenge!

On the Road . . . with AppleLink!

You've read about how you can keep your computer powered up and online when you're on the road (page 1). Now it's time to make plans for that summer vacation you so richly deserve. One stop on AppleLink does it all — just turn to Travel Services, located in The Mall in General Services, and plan your vacation online!

- Thousands of people from across the country are making their airline, hotel, and car rental arrangements — and finding the lowest fares — with **American Airlines' EAASY SABREsm Travel Service** (*keyword: sabre*). Now you can too, with the schedules and travel information of over 600 airlines at your fingertips!
- Before you arrive at your destination, get the lowdown on local events, festivals, and happenings with TravelLink. TravelLink lists events alphabetically by state, and is updated every two weeks by OTR Travel Services, a national firm that helps travel agents and independent travellers alike to "discover the hidden America."

A Key to Keywords

Keywords move you from one department or service to another without having to use the icon screen. Select Keywords from the Go To option on the horizontal menu or by pressing OPEN-Apple K.

Each Department name is a Keyword. For example, one Keyword for "AppleLink University" is **"applelink university."** Keywords can be typed in either upper or lower case. All Keywords below appear in boldface.

ANNOUNCEMENT:

Telephone Number for the Hearing Impaired

AppleLink is the proud new owner of a Telephone Device for the Deaf (TDD) machine. With the TDD machine, we are able to communicate the written word over the phone for our hearing-impaired PC-Link members, or potential members who want to come online. The toll-free number, for a recording that allows you to leave your own message, is **1-800-795-DEAF**. The line is open 24 hours a day. Replies will be made during regular Customer Relations Department hours: Noon until 1 a.m., EDT. Spread the word!

All times listed are Eastern times.

For the AppleLink® — Personal Edition terms of service, billing, and related information, please see the online Customer Service area in General Services. Your use of the AppleLink service constitutes your acceptance of the terms of service, billing, and related information.
